

# COLING 2022

October 12 – 17, 2022 / Gyeongju, Republic of Korea  
The 29th International Conference on Computational Linguistics

<b>[Virtual oral session 13] Machine Translation and translation aids</b>	
Date	Day 1. Wednesday 12 Oct.
Time	18:25–19:15 KST 11:25-12:15 CEST 05:25-06:15 EDT
Place	103-104
Session Chair	Cristina España Bonet

## **Towards Robust Neural Machine Translation with Iterative Scheduled Data-Switch Training**

*Zhongjian Miao, Xiang Li, Liyan Kang, Wen Zhang, Chulun Zhou, Yidong Chen, Bin Wang, Min Zhang and Jinsong Su*

## **Informative Language Representation Learning for Massively Multilingual Neural Machine Translation**

*Renren Jin and Deyi Xiong*

## **ngram-OAXE: Phrase-Based Order-Agnostic Cross Entropy for Non-Autoregressive Machine Translation**

*Cunxiao Du, Zhaopeng Tu, Longyue Wang and Jing Jiang*

## **Categorizing Semantic Representations for Neural Machine Translation**

*Yongjing Yin, Yafu Li, Fandong Meng, Jie Zhou and Yue Zhang*

## **A Closer Look at Few-Shot Out-of-Distribution Intent Detection**

*Li-Ming Zhan, Haowen Liang, Lu Fan, Xiao-Ming Wu and Albert Y.S. Lam*

## **Gated Mechanism Enhanced Multi-Task Learning for Dialog Routing**

*Ziming Huang, Zhuoxuan Jiang, Ke Wang, Juntao Li, Shanshan Feng and Xian-Ling Mao*
